

# Video Conferencing Solution

The Vanuatu Government Video Conference system is an alternant multimedia communication system which is integrated with video, audio, and data communication. It is a value-added business based on the E-Tel network. It can meet the multimedia communication requirements for 2 or more people.

The Video Conferencing solution is provided by the Government of Vanuatu and is currently managed by the Office of the Government Chief Information Officer (OGCIO). It was initiated in the e-Government project as a Government wide application. The solution has been deployed on the Government Broadband Network (GBN) on its technology architecture.

## WHAT DO WE DELIVER?

- Enabling quick meetings across any distance while saving travel costs, Vanuatu Government Videoconferencing Solution offers the security and video quality to meet today's requirements.
- Enabling users to enjoy a face-to-face communication experience.
- Enabling organizations that have many branch offices and complex organizational structures requiring hybrid, multi-level cascading networking communications.
- Mission-critical meetings that demand stable, high-performance conferencing with high confidentiality.
